

### VoR INFORMATION LUNCH

On November 1, VoR conducted our inaugural WEDA Information Seminar at the Sutherland Leisure centre. By all accounts it was a thoroughly enjoyable and interesting day. Highlights include the introduction to backwash water recycling techniques and the presentation of special maintenance tips by Enders Ekenback, WEDA's Head Service Technician who flew in from Sweden for the event. Participants also enjoyed a relaxed pool-side buffet lunch. We would like to thank everyone who helped make this event a success.

### SWIMMING POOL BACKWASH WATER RECYCLING

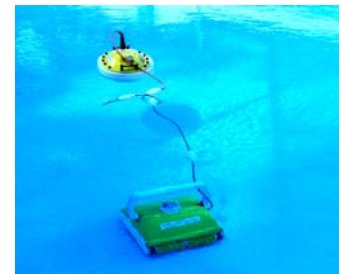

VoR has utilised its extensive expertise in the water and waste water industries to develop a water recycling system designed specially for commercial swimming pools. The system recovers 90% to 95% of the pool backwash water. This water can be directed for use on lawns, gardens, toilet blocks and if required by client, water may recycled back into the pool, Please contact our office if you are interested in obtaining more information on this system.

< BEFORE & AFTER SAMPLES OF THE BACKWASH WATER:

### NO TANGLED CABLES WITH THE NETTUNO.

If you experience tangled and twisted power cables, have pools with beach entries, islands or obstacles, then the Nettuno pool cleaner what you have been waiting for. The Nettuno has a floating power pack, with no other cables, wireless remote control for automatic and manual cleaning functions and 2 filter bags. It is also lightweight & easy to maintain. Please contact our office for a free demonstration.

### Australian Institute of Sport

^ WEDA B680

After months of research, the AIS has chosen to use the WEDA B680 for use in cleaning all their pools, including their new \$17million pool, billed as one of the most technologically advanced pools in the world

### Sutherland Shire Council Super Auto

The Sutherland Shire Council purchased 4 WEDA "Super Autos" for use in all three of their leisure centres. They are the first to use these cleaners in Australia. If you would like a demonstration of our "Super Auto" or any of our other products, please contact our office.
